Satya Sattva studio invites you to attend the introductory workshop in the Transpersonal Psychology and Spiritual aspects of the Enneagram model of human personality.

The **Enneagram** is principally used as a typology system of nine interconnected personality types ("*enneatypes*"), allowing multiple connections among them and particular potential evolution paths.

We will present the roots of the Enneagram personality model, the philosophic and psychological concepts based on the earlier teachings of G. I. Gurdjieff and the Enneagram spiritual Sufi tradition, the modern contemporary view on the Enneagram as a Transpersonal Psychology introspective discipline, and practical ways of using the Enneagram tools for developing and perfecting one's personality.

In spirituality, the Enneagram is more commonly presented as a path to higher states of being, essence, and enlightenment. It has been described as a method for self-understanding and self-development.

During the **Enneagram Workshop**, we will explore the essence of the Enneagram as both a **spiritual path**, and as **psychology discipline**, and we will set the basis for the Enneagram course and study group.

The **Enneagram Classes** to follow the initial workshop (10 classes series) will be focused on thoroughly presenting each of the **9 Enneatypes**, describing their particular features, early life pre-determinations and recurrent tendencies, as well as suggested development and evolution paths; the 10th class will conclude with a view on the fulfilment of the **Enneagram path** as a way to self-awareness and enlightenment.
